HOSPITAL/WARD _____

REQUESTING DOCTOR (PROVIDER NUMBER, SURNAME, INITIALS, ADDRESS)

Was or will the patient be, at the time of the service or when the specimen is obtained: (✓ appropriate box)

a. a private patient in a private hospital or approved day hospital facility	yes <input type="checkbox"/>	no <input type="checkbox"/>
b. a private patient in a recognised hospital	<input type="checkbox"/>	<input type="checkbox"/>
c. a public patient in a recognised hospital	<input type="checkbox"/>	<input type="checkbox"/>
d. an outpatient of a recognised hospital	<input type="checkbox"/>	<input type="checkbox"/>

MEDICARE ASSIGNMENT
(Section 20A of the Health Insurance Act 1973)
I offer to assign my right to benefits to the approved pathology practitioner who will render the requested pathology service(s) and any eligible pathologist determinable service(s) established as necessary by the practitioner. In the alternate, I authorise that APP to submit my unpaid account to Medicare so that Medicare can assess my claim and issue me a cheque payable to the APP for the Medicare Benefit.

PATIENT'S SIGNATURE AND DATE
X _____ X _____ / _____ / _____
Practitioner's Use Only _____
(Reason patient cannot sign)

PERSON DRAWING BLOOD
I certify that the blood specimen(s) accompanying this request was drawn from the patient named above. I established the identity of this patient by direct inquiry and/or by inspection of wrist band and immediately upon the blood being drawn I labelled the specimen(s).

	Received Date	Rec. Time			B/C	Clinic			

Important Information for Patients

Remember between now and your next test date to contact QML Pathology on **1300 661 963** or email warfarincare@qml.com.au, if any of the following apply:

- There are any changes to your medicines that you will be taking for more than three days. (This includes prescription and non-prescription medicines, vitamins, and herbal and health supplements)
- You commence antibiotics or pain killers
- There have been any relevant changes to your health, e.g. new medical conditions or health deterioration
- You have been hospitalised for more than 24 hours and/or you are on heparin (clexane) injection
- Your Warfarin needs adjusting prior to planned procedures or surgery
- Your Warfarin dosage is altered by any other doctors

PREPARING FOR YOUR TEST

For your convenience, please ask for a blank request form from the Collector for you to complete prior to your next test. For those with access to the internet this form can be downloaded and completed prior to you attending a QML Pathology collection centre.

Go to: qml.com.au/WarfarinCare.aspx and download the QML Pathology Warfarin Request Form.

RECEIVING YOUR RESULTS

We ask that you continue to take the same dose until we contact you. All phoning out to patients is done in order of clinical priority, we contact new patients and those with abnormal results first, then those with minor dose changes. If, however, you do not receive your results within 2 - 3 days of your test, you should contact us on **1300 661 963** to confirm your INR and Warfarin doses.

If you are a new warfarin patient and you do not receive a call after 24 hours, please telephone our Warfarin Support Service on **1300 661 963**.

Stable patients and those with minor dose changes will receive their results by SMS or mail.

TRAVELLING AWAY

You must notify QML Pathology if you are going away on holidays or business. Sometimes we can change your next test date to fit in with your plans but other times you will need a test whilst you are away. If testing outside of the QML Pathology network, you will need to make alternative arrangements for testing and obtaining your results and warfarin doses.

HOSPITAL ADMISSIONS

Prior to, or once discharged, you will need to be reinstated onto the Warfarin Care Clinic monitoring program by the Hospital. Ask them to contact us before you are discharged. Short stay or minor procedures may be exempt from this process. If you have been prescribed heparin (e.g. clexane) injection, you will need to remain under the care of your hospital or be referred to your doctor (unless under a private specialist) until you have stopped taking heparin and your INR results have returned to range. You can then be reinstated onto the Warfarin Care Clinic monitoring program.

Reminder: This service is not Government funded. We require your full cooperation to make this service run efficiently and effectively. Those failing to cooperate may be removed from the service and your doctor notified.

It is important that your contact details, phone numbers and postal address are up to date and current at all times. Mobiles should be switched on and/or other phones should have a suitable answering service if you are unable to attend to these.

QML Pathology may telephone you, send an SMS to your mobile or send your results by mail.
